

Dear All,

I am Dr. Aniket, the Module leader and lecturer for 0058 Economics.
Welcome to the course!

0058 Economics is a course that will be delivered over 20 weeks. The best way to get to grips with the course is to first watch my introductory video and read the document "HOW THE COURSE WORKS" on the [Moodle course website](#).

Once you have seen the video and read the document, head over the Lecture 1 tab. There you will find a Task for Lecture 1 document that details what you have to do for this week. The tasks entail watching the Lecture 1 video, going through the reading and then completing the assignment. The Task document contains the details of the assignment that you have submit to your study skills course by Thursday this week. The assignment is a really simple one that requires you to read two pages to text and answer a question in 400 words.

Under the module overview tab, you will also find useful documents like the Module outline, reading list and the course calendar.

Best of luck for this week's assignment.

With best wishes,
Dr. Aniket
